SUMMARY

Full stack web developer with nearly 2 years of remote experience building and maintaining multi-language WordPress websites and automating processes with n8n and AI (ChatGPT, Claude). I work with JavaScript, React and Tailwind CSS on the frontend and Node.js, Express.js and MySQL on the backend. Available immediately for on-site, hybrid or remote work, with my own equipment and high-speed internet.

EXPERIENCE

Jul 2024 – Apr 2026 Remote	Full Stack & AI Automation Developer KALSTEIN FRANCE S.A.S. - Developed and maintained several WordPress websites in different languages: new features in PHP and JavaScript, interface design, migrations and site translation. - Built an n8n bot that uses WordPress webhooks to replicate new or edited products across every language site, cutting a manual process from days to minutes. - Implemented 8+ automations with n8n, ChatGPT, Google Sheets and the WordPress REST API: cross-domain article replication, scheduled writing and publishing of SEO articles, and product description improvements. - Applied on-page, off-page and technical SEO strategies.
Dec 2021 – Jan 2024 On-site	Sales Advisor MercadoLibre / TuCarro.com Customer service via WhatsApp Business, vehicle photography and publishing listings.

PROJECTS

Personal project	Secure Password Generator · JavaScript, Tailwind CSS v4, Web Crypto API, Claude Code secure-password-generator-b96.pages.dev · github.com/johnjanieltr/secure-password-generator Password generator that runs 100% in the browser with cryptographic randomness, strict CSP and a 4-language interface, built with Claude Code while reviewing every change.
Practice project	Oral Dent – Dental clinic landing page · WordPress, Claude Code, Novamira MCP oraldent.fredev.app Mockup and interactive prototype for client approval, WordPress development with a working contact form and FTP deployment.
